

SPORT INSTALL LLC

BAC-SHIELD™ ANTIMICROBIAL SPRAY

Sport-Install is proud to offer Bac-Shield™ antimicrobial spray for synthetic turf fields. Bac-Shield™ antimicrobial treatment gives antibacterial and antifungal properties to synthetic turf surfaces, inhibiting the growth and reproduction of odor causing bacteria, mold, mildew and fungi. It can be applied on new and existing fields without changing the appearance or performance of the playing surface. Sport-Install offers the Bac-Shield™ application with our standard maintenance and grooming packages on an annual or bi-annual basis. Prices vary per field size and location.

Bac-Shield™ is manufactured by Chem-Tex Laboratories Inc. It is registered with the EPA as a Category III product and is biodegradable. For more information on Bac-Shield™ or to view additional product related uses, directions and disclaimers, please visit the Chem-Tex web site: www.chemtexlaboratories.com

Sport-Install is proud to be an innovator in maintenance applications for all types of synthetic turf surfaces. Bac-Shield™ is another step in the evolution of care and maintenance of synthetic turf and provides additional protection from the harsh environments these surfaces face.
