

Dekompaktierbürste DC1600

Decompaction brush DC1600

The 3-point hitch rear-mount accessory with variable tow coupling fits all popular makes of compact tractor available on the market. It is designed to loosen up mixed-fill artificial turf surfaces and to straighten the turf fibres. The infilling material is levelled with the trailing brush row. The working width is 1,600 mm; the working depth can be precisely adjusted via two adjusting spindles.
